Dear FCC,

I am writing to you as a listener of K-Love radio station on 94.7 and 94.9 FM in my area (Memphis, TN). As a commuter who drives 100 miles per day to work and back, I am an avid radio listener and rarely change the station from K-Love. From the number of bumper stickers I see on passing cars, I am not alone in my love for this radio station!

I find it refreshing that I never have to worry about what the DJ's on K-Love will be talking about or what music they will be playing. The goal of the radio station is to be encouraging and to play uplifting music. It makes a difference in my day to be encouraged by total strangers through my radio station during my daily commute.

I believe that I am not alone in seeking a radio station like the one K-Love offers. Many others in my community are encouraged by the music played on K-Love. Please allow K-Love to continue serving my community and please do not replace it with an LPFM station that probably will not play the same type of music.

I appreciate your consideration of my letter.

Sincerely,

Garland Goddard
